## PRESIDENT'S LETTER

The first two months of 2016 have brought some interesting weather to Meadview with some very cold days, a little snow and some delightful days but always with some of the world's most outstanding sunsets reflected on the Grand Wash Cliffs.

Our new data processing program is working well, there are always a few hiccups with any new program, and we are now working on developing new programs to assist you with your different options when paying your 2017 assessments.

The Different options are:

1. Bill Pay– an automatic payment sent by the member from their bank account and a check will be made out and mailed to the MCA from your bank.
2. Credit Card payments– you will be able to call the MCA office and make your payment over the phone using most major cards.
3. Payment by Personal Check, Cashier's Check or Money Order– as most have been doing in the past, but the checks will be deposited electronically. (You may write one check for all lots.)
4. Cash– if you pay by cash at the office this will remain an option.

E-Billing - [mca@citlink.net](mailto:mca@citlink.net)

E-mail us at the above address to request E-Billing. In the Subject line write E-Billing Request. In the body of the e-mail include your name, address, e-mail address, phone number and lot information. When the next billing cycle begins you will receive an e-bill instead of a paper bill.

The benefits for our members and our office will be that the cost of mailing assessments will be reduced using the E-Billing process along with the reduction of staff and volunteers processing the massive amounts of mail going out each year. Streamlining our banking operations including the fact that we are not transporting deposits all the way to Kingman weekly, when deposits can be made at the end of each day including Saturdays electronically.

In closing, I wish to ensure you that this Board of Governors always strives conscientiously to improve on and save in any and all ways possible in bringing higher standards each day at the MCA for its members.

Ron King,  
President

**LORI RODGERS-ROLL**

- Born in Owosso, Michigan. My husband, Robert and I were seasonal visitors to Meadview for over 20 years. We elected to become property owners in 2005 and established permanent residency in 2012.

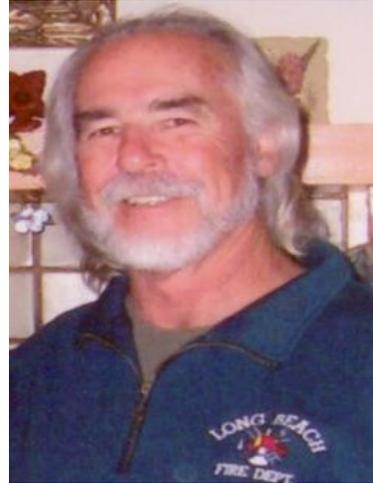

For 30 years, I participated in and ran several businesses in construction and restaurants. This experience included operation, management and supervision in various venues. Various skills required were in financing, human resources, sales and public relations.

In 1986, I was certified by the Michigan State Police as a law enforcement officer, as well as a firefighter for the State of Michigan.

After 9/11, I went back to school and I became a Professional Emergency Manager, certified by the Department of Homeland Security and Michigan State Police. Subsequently, I gained the position as Director of Military and Emergency Services for the American Red Cross.

Much of my experience since 9/11 has been in the area of government liaison and community relations for local, state and national disasters as a representative of the American Red Cross.

Most of my life has been spent serving the public and the needs of the people in those communities. Now, I feel this is an opportunity for me to use my skills and my expertise to serve the Meadview Community.

Mary Lee Beck, NP in our Meadview Clinic, had a very interesting presentation on Senior Health. She used fun explanations about what to eat, what not to eat, and eating habits that can cause problems and good reasons to change some of those eating habits. She mentioned that the French eat smaller portions, and spend an hour or two while enjoying the lively conversation of their table companions. And they do not have nervous stomachs. Stephanie Reynolds, from KRMC and her assistant Julie, were available to do blood pressure tests on all who stopped at their table. They also did blood glucose tests. They had quit a lot of willing residents who stuck out their arm and/or finger to get a reading on their BP and blood sugar.

The Friends of the Arizona Joshua Tree Forest have a membership drive going, and will also be taking part in the Great Backyard Bird Count in mid-February. We are expecting Alice Newton to be our guest at our February meeting which will be a few days before this article has to be in. Hope you have a fun Valentine's Day.

**QUAIL**

By Carol Duran

The Quail Club is an all-volunteer, Community and Family Interest Club. We have fund raisers throughout the years so that we can provide scholarships to local children. We meet at the MCA on the 3rd Tuesday of each month at 10:00 a.m. At our monthly meetings we have raffles and throughout the year we sell See's Candy and Cookbooks. We also have bake sales, silent auctions and any other activities we can think of for acquiring funds for scholarships. We collect pennies, eyeglasses, Campbell soup labels, "Box Tops Education" labels, and donations of raffle items. We also donate funds and collected items to various organizations.

**Programs**

In January, Linda Boyden gave a demo of the Quilts that she and the Red, White and Blue Quilters make. In February, we had a Spinning demo. The challenge for February was to bring unwrapped Baby Shower gifts for Military Families. On March 15th, there will be a demonstration of Meditation Tai Chi and the speakers will be Debera Daugherty and Barbara Jean. On April 19th, the program will be facial by Sandy Henderson. In April, we will also be attending a Spring Luncheon at the Golden Corral, hosted by the Morning Glories Community and Family Interest Club of Kingman. We are having a busy year. You don't have to be a member of the Meadview Quail Club to attend Quail meetings. Hope to see you there.

*In any moment of decision, the best thing you can do is the right thing, the next big thing is the wrong thing, and the worst thing you can do is nothing. - Theodore Roosevelt*

### Friday, March 18 - Monday, March 20, 2016

**Meadview, AZ** - Joshua trees are one of the most unusual and recognizable plants of the Mojave Desert, but the future of these remarkable plants are threatened by ongoing global climate change. Computer models predict that within the next 100 years Joshua trees may disappear from much of their current range, and emerging demographic data suggests that many populations in the southern Mojave Desert are already on their way to extinction. It is possible that the species may be able to survive by migrating to more temperate environments further north, but the trees' capacity to escape warming climates will depend on how quickly they are able to colonize new habitats. The western edge of the Grand Canyon provides a remarkable venue to study the effects of climate change on Joshua trees. Where the Colorado Plateau meets the Mojave Desert the sweeping hillsides descend over 4,000 feet in the space of less than ten miles. Across this gradient a single population of Joshua trees experiences a range of climates as different as Palm Springs is from Bishop, California. This natural laboratory allows us to step into the future to discover how changes in the Earth's climate may affect the reproduction and survival of Joshua trees. During a three-day citizen science program, participants in this course will contribute to ongoing scientific research on the population ecology of this most famous Mojave Desert species. Pre-registration is required!

**EXPLORERS**

By Suzann Newell

Ten of the group drove to Grand Canyon Western Ranch to be serenaded by both Cowboy Dave and Casey Adams. What fun! The Ranch is really good and we were warmly greeted by Hostess Ollie Freihaut of LMC. The lunch menu is extensive and very good. A few days later a group of us drove up to Grapevine Springs and hiked up past the second falls.

The water was really pretty gushing down the jagged rocks. Joan Stoops took Photos of the Falls. At our regular meeting we set up three trips: The Portland Wash Mine trip was done on the only really nice day recently. The sun was shining and made a mirror of the deep pit mine lake. We also counted close to 40 burros and quit a few cattle along the way. The road is as rough as ever, but some deep cuts have been filled. The 50 miles between Highway 93 and Highway 68 took us about 4-1/2 hours. The next trip will be at Salt Springs off the Temple Bar Road. Then we will hike into Marble Canyon that begins at Basin Drive Wash. That canyon goes down to Grapevine Wash but we will come back to eat lunch at the Dear home. Our regular meetings are on the 2nd Wednesday at 6:30 in the MCA Auditorium.
